

1st March 2024

To whom this may concern:

This is to inform you that Ryan Gabriel Stevens was the Head Prefect of Beaconhouse Sri Murni for the academic year 2023/2024.

I am pleased to share that as the Head Prefect, Ryan Gabriel Stevens was able to bring the prefectorial board to a high level of expectation. His initiative was seen in the numerous occasions, he has spearheaded programmes within the prefectorial board as well as the school at large. One such event was the 2023 Teachers' Day celebrations where as the current Principal I gave total empowerment to the Head Prefect and his team to plan and execute activities for the day. It is with personal pride that I pen this – Ryan Gabriel led his team exceptionally well. Even with the constraints imposed by the Ministry of Education Malaysia due to the heat wave, Ryan Gabriel planned focused-group activities where teachers and students were dispersed at different locations in the school to run the activities. There was maximum student-teacher participation. A very first of such an event at our school but one which was executed perfectly under the leadership of Ryan Gabriel Stevens.

On the social side, Ryan Gabriel is very amiable and socializes well with everybody in school. He gets along very well with the student population and this has resulted in great admiration the student population has for him.

Ryan Gabriel has indeed shown great passion in serving the school and others to the best of his ability. His courtesy and mannerisms as well as his maturity of thought are his notable attributes. He has great determination to do well in whatever task that he has to perform.

Ryan Gabriel Stevens will be a great asset to have in any organization. I would therefore highly recommend him.

Thank you.

Best regards,

Pamela Esther d/o Paul Devadason
Principal
